Need: change, turquoise, people! Open all doors and trunk during blessing.

All-encompassing call and Invocation: We ask all the Directions in which this '93 Buick will be pointed during its lifetime, to be with us and bless Kate and _____. Guardians of the Watchtowers, witness this request. Mother and Father of us all, be with us and watch over Kate and _____ the '93 Buick.

Brigit, as a working college woman's car is also her part-time home, bless _____ with Safety and Speed.

Isis, spread Your wings wide over this car and guide _____ safely within their shadow.

May the engine never fail, and the drive train never go kaput.

May the road be predictable, the traffic lights cooperative and other drivers friendly.

May your gas tank never be empty.

May you never drive a long distance with your blinkers on.

May you always brake carefully around corners.

And, when all else fails, keep her between the lines and wear a big smile.

(Everyone tosses coins into the car while adding their own wishes for Kate and _____.)

In the name of the God and Goddess, every Direction, and UUs everywhere, we bless and name this car _____ of the clan of Kate! SO MOTE IT BE!
